SPECIALIZED SERVICES

A specialized compounding pharmacist can help you make the difference for the animals in your care. For the specialized veterinarians who care for widely diverse populations of zoo and wildlife animals, we are your partner in promoting animal well-being by providing the custom-compounded medicines so often required by zoological medicine specialists.

As one of the nation’s largest compounding pharmacies, our specialized compounding pharmacists have helped solve unique medication problems for zoos, aquaria and preserves for years. Serving more than 25,000 human-health and animal-health prescribers, we have the experience and resources to help you to solve many complex medication-compliance issues.

WHY WEDGEWOOD PHARMACY

We offer a full complement of service to support your needs. For more information visit WedgewoodPetRx.com.

- Ophthalmic and otic drops and ointments
- Beads and pellets

INNOVATIVE SOLUTIONS

Here are just a few examples of innovative medication solutions we’ve developed with veterinary teams to treat animal species, measured in weight from grams to tons:

- An unflavored, uncolored antibiotic gel, injected into bananas, for a primate who was too smart to eat grapes injected with a pink-colored commercially available medication;
- A banana-flavored paste to deliver antibiotic to a 600-pound tortoise;
- An anti-fungal water bath for frogs;
- A drug combination to be inserted into a feeder fish for shark;
- A eucalyptus-flavored oral suspension for a koala bear; and
- A banana-molasses-flavored paste for an elephant.
